

Women's Only PDC in Far North Queensland with Rosemary Morrow

Acclaimed author of "The Earth Users Guide to Permaculture"

PERMACULTURE DESIGN CERTIFICATE COURSE

Sunday 14th March– Sunday 28th March 2010

Walkamin • Near Cairns • Far North Queensland

Don't miss this unique opportunity to take part in a very special two week **Women's Only** Permaculture Design Certificate Course, taught by one of the best, internationally renowned teachers in the world. Rosemary is the acclaimed author of "The Earth Users Guide to Permaculture" and a role model for all aspiring female Permaculturists. This rare **Women's Only** event promises to be an opportunity not to be missed. The course will incorporate intensive theory and practice in all aspects of Permaculture Design. This course is being held at FreeRange Permaculture's demonstration site "Rosella Waters", a stunning 6 acres situated right on the banks of the Barron River.

Why is this a Women's Only Course?

Women bring to Permaculture a unique perspective based on their life experiences, education, cultural and inherent knowledge. For a long time, many male, but only a few women Permaculturists, have been recognized for their outstanding achievements. At FreeRange Permaculture we see the need to inspire the next generation of intelligent and very capable women to create thoughtful and environmentally sensitive designs and lead their families and communities towards a sustainable future. This course will create a rare space for women to come together and share a unique two-week experience that will last a lifetime.

"Though the problems of the world are increasingly complex, the solutions remain embarrassingly simple." - Bill Mollison

We are all looking for practical solutions. Farmers are seeking ways to earn an income and build soil fertility. People in cities are seeking effective ways of growing healthy, organic food in urban environments. It is possible to retrofit an existing house or property that results in lower energy costs and better health for us and our families. There are solutions that use intelligent, thoughtful design principles to build sustainable lives, and sustainable communities.

Permaculture design principles can be applied across any biosphere, on any property, in any landscape, and in any city. Permaculture offers an integrated approach to land use and community building, designing diverse and stable ecosystems for people to provide food, energy, shelter, and other needs. With positivism and practical applications of innovative and effective design, we can all live in a sustainable way and allow natural systems to flourish for the betterment of global health.

"The only ethical decision is to take responsibility for our own existence and that of our children," - Bill Mollison

What is a Permaculture Design Certificate Course?

The Permaculture Design Certificate Course (PDC) has been delivered since the early 1980's to possibly millions of people across the globe. All manner of people have done a PDC to equip themselves with the ability to confront constant cultural & environmental change & to become more sustainable, energy efficient members of the community.

The PDC is an efficient & cost effective means of gaining the knowledge of Permaculture Ethics & Principles together with amassing a skills, techniques & knowledge base for designing & developing sustainable human settlements - from a small home to a broad acre farm.

The 2 week residential format combines all of this to make for a totally empowering experience that is very likely to change your life...not to mention the connections and friends you will make for life too!

Why take this Permaculture Design Certificate Course?

This PDC delivers the certified curriculum from [The Permaculture Institute of Australia \(Bill Mollison\)](#) . The curriculum is therefore based on Mollison's Magnus opus: [Permaculture: A Designer's Manual](#).

The PDC is a very intensive learning experience. This interactive course has been specifically designed to meet the needs of adult learners, using a wide range of creative facilitation methods, which have been roundly appreciated by Rosemary's past participants.

The course aims to empower participants with the skills and knowledge required to become a person capable of designing and developing sustainable systems anywhere in the world.

"I thought I was coming to learn about gardens, and instead I learned about life, and the importance of community and interdependence." – Quote from a previous course participant

The 72-hour Permaculture Institute PDC is equivalent to one university/college subject of one semester. It has always been intended to be a course focused on design and thinking, rather than about technique

This PDC manages to balance the needs of participants by delivering the curriculum using a diverse range of outdoor practicum & design exercises for applied learning, along with imagery-based slideshows & videos. Working on the design and development of 1000's of properties in every corner of the globe has provided Rosemary with a plethora of before & after photographs and experiences to share with her students.

This course can also serve as the foundation for further study and is a prerequisite for a [Diploma in Permaculture Design](#), awarded by The Permaculture Institute. The credit attributed to a PDC is accepted by a growing number of universities around the world.

About the teacher

Rosemary Morrow, based in the Blue Mountains of NSW, is a Permaculture Design teacher of almost twenty years, development assistance worker, home gardener and relocalisation advocate. Rosemary has worked in Afghanistan, Cambodia, Vietnam, India, Albania, Africa, Indonesia and Australia to educate people in Permaculture Design. However, it is her dedication and service to farmers and villages worldwide, as well as to those in war torn nations that is of outstanding significance.

Rosemary is the author of "The Earth Users Guide To Permaculture" (new edition 2006) as well as "The Earth Users Guide To Permaculture Teacher's Notes" for up and coming Permaculture teachers. Most of all, Rosemary is an inspiration to all who meet her and a passionate supporter of the next generation of Permaculturists.

Location & Travel

The course will be held on our demonstration site “Rosella Waters”, near Cairns in Tropical Far North Queensland, an easy 1hr drive from Cairns International Airport or 15 minutes from Atherton, the largest township on the majestic Atherton tablelands.

Free Range Permaculture
Rosella Waters
331 Henry Hannam Drive
Walkamin QLD 4872

Please [visit our map](#) for the exact location.

[Bus services](#) are available from Cairns to Walkamin via Mareeba.

Bookings

The course fee for this two week course is \$1,300. This fee includes all meals (omni or veg) and basic camping facilities over the two week period.

[Contact us](#) to book your place or for more information. Alternatively call Kym on + 61(0) 407 243 298 or Georgie on +61 (0) 437 267 323. To ensure that all participants get the most from this course positions are limited, so please book early to ensure your place.

Accommodation

Accommodation for this course is provided in the form of campsites at Rosella Waters. The basic facilities include composting toilet and shower. Breakfast, lunch and dinner will be provided at the course house site, over looking the beautiful Barron River, a short stroll from the shed where classes will be held.

Only 4km's away is [Walkamin Central Van Park](#) which has powered & non powered van sites available. For more information call them on [07 4093 3990](#)

Alternatively, the nearby towns of **Mareeba** (10kms) and **Atherton** (20kms) that lie within the majestic [Atherton Tablelands](#) region, both have a wide range of accommodation options available.

About FreeRange Permaculture

[FreeRange Permaculture](#) provides world-class courses and workshops in a range of sustainable practices. We have become a leader in sustainability education for future generations in the Far North through our **Healthy Educational Living Permaculture (H.E.L.P.) School Garden** program.

Our Permaculture demonstration site is “Rosella Waters” near Cairns in Far North Queensland. The 2.38H property is located in Walkamin near what is locally known as the “jump-up”, the edge of an ancient lava flow. At an elevation of close to 600 meters above sea level and with over 1000mm of rainfall per year, it is a unique climate suited to a wide range of produce. The property is fronted by 194 meters of the Barron River, which flows year round and is the major river in the region. Any questions, just call Kym on +61 (0) 407 243 298 or Georgie on +61 (0) 437 267 323. Alternatively you can [Email](#) us.
