

EMPOWERED ORGANISATIONS

THE FUTURE THROUGH SOCIOCRACY

CULTIVATING FLEXIBLE, EFFICIENT, RESILIENT & SUSTAINABLE BUSINESSES, ORGANISATIONS AND COMMUNITIES

In this training workshop you will learn and practice a unique organisational method that:

- KINDLES CREATIVITY, INNOVATION, COMMUNITY WELL-BEING, & ENTREPRENEURIAL SPIRIT
- MAXIMISES EFFECTIVENESS & REDUCES TENSIONS AROUND POWER
- DECREASES THE LENGTH & NUMBER OF MEETINGS WHILE HEIGHTENING PRODUCTIVITY
- STREAMLINES DECISION-MAKING
- INCREASES INDIVIDUAL ENGAGEMENT, COMMITMENT & EMPOWERMENT

SYNAPSE CONFERENCE ROOM || LEVEL 1, 262 MONTAGUE RD, WEST END

Basic 2-day training Cost: \$350

Friday 16 & Saturday 17 March 2012

- Understand the 4 underlying principles of Sociocracy
- Obtain tools for organising workflow
- Untangle complex issues
- Experience circle meetings, elections, and how decision-making changes when switching between the operational and circle structures
- Use a circle meeting to steer the two-day training

Advanced training Cost: \$175

Monday 19 March 2012

- For people who have completed Basic 2-day training
- advanced training in facilitation, workflow design and a forum on implementing Sociocracy into your organisation
- observe and/or experience an open consultation session and the launching of a **Community of Practice** as a vehicle for further learning for those using/implementing Sociocracy

FACILITATOR: GINA PRICE

Gina has been learning and working with the Sociocratic method since 2004. She has worked with the Sydney Coastal Eco Village & The Sustainable Business Leaders Forum. Since September 2008 Gina has been working as a certified trainer and inspiring interest groups to self organise. www.ginaprice.com.au

FACILITATOR: JOHN SCHINNERER

John is a whole systems design consultant, teacher, and facilitator who develops cultural and ecological systems for a variety of public, private, and non profit clients. Since 1996, he has studied, worked, taught and published in the realms of human relating, governance and decision-making systems, appropriate technology and ecological design.
